SUMMARY OF ST. LOUIS MARKETS.

There was the usual amount of Saturday liquidation on the part of longs who did not wish to carry their holdings over Sunday. This movement to unload was nided by selling in other markets and lower cables, indicating a temporary falling off in the foreign demand. Dec. wheat opened unchanged and closed \(\frac{1}{2}\) \(\frac{1}{2}\) \(\text{c}\) down. May opened \(\frac{1}{2}\) coff and closed with a loss of \(\frac{1}{2}\) coff the day. Dec. corn opened \(\frac{1}{2}\) \(\frac{1}{2}\) coff.

And closed \(\frac{1}{2}\) coff.

Trading in oats was again light. May opened and closed \(\frac{1}{2}\) coff and Dec. opened and closed \(\frac{1}{2}\) coff.

Receipts of wheat at St. Louis to-day were 25,000 bu., compared with \$3,355 bu. a year ago. Of these \$23 sks and 30 cars were local, compared with 2,291 sks. and 94 cars local and 10 cars through the same date a year ago.

Receipts of wheat at primary points were 1,151,829 bu., as compared with 975,000 bu. same date last year.

Shipments, 229,201 bu., compared with \$86,000 bu. same date last year.

Receipts of owheat at Minneapolis and Duluth were 916 cars, as compared with 406 cars same date last year.

Receipts of corn at St. Louis were 25,900 bu., compared with 35,200 bu. a year ago. Of these \$5\$ cars were local and 6 cars through, compared with 28 cars local and 16 cars through the same date a year ago.

Receipts of corn at primary points were 488,175 bu., as compared with 694,000 bu. same date last year.

Shipments 512,445 bu., compared with \$86,000 bu. same date last year.

Receipts of oats at \$5\$ t. Louis were 28,900 bu., compared with 31,200 bu. a year ago. Of these 21 cars were local and 2 cars through, compared with 21 cars local and 1 car through the same date a year ago.

Receipts of oats at primary points were 424,775 bu., compared with 23 cars local and 1 car through the same date a year ago.

Receipts of oats at primary points were 424,775 bu., compared with 23,900 bu. same date last year.

Gate last year.

Shipments, 215,518 bu., compared with 463,000 bu. same date last year.

The produce market was steady. Fruits were practically unchanged, and vegetables were in better demand at slightly higher prices.

The local market for spot cotton was quiet and unchanged.

Local bank and trust company stocks were again in demand; many of the recent

losses being wiped out.

Banks reported a fair business, with discount rates firm, between 5 and 6 per cent.

USUAL SATURDAY LIQUIDATION | National Carbon com.... CAUSED GRAINS TO DECLINE.

CORN WAS THE HEAVIEST LOSER-DROP, ONE CENT.

Wheat and Oats Were Weak in Sympathy, but Losses Were Fractionally Smaller.

considerable liquidation by longs who were not disposed to carry their holdings over day with the risk of losses on the alnost invariably lower Monday openings. Foreign markets were not favorable to the though clearances and export statistics in-dicated a fairly good feeling.

losed with a loss of le at 57%c. May opened %c down at 9k, and closed %c off at 19%659%c.

CURED WITHOUT OPERATION OR DETENTION FROM BUSINESS Hundreds of men are leading a life of mis cry—afflicted with varienceele, and not knowing what alls them. It is a disease of the return circulation of the Testicles, gradually implanting itself on the Spermatic Cord. Testicles and surrounding tissue, resembling to the touch a bunch of earthworms. Symptoms of Variencele—ask yourself these questions:

1. Are cords and parts on the left side very calarged and engaged?

2. Is the return circulation on the left side of parts relarded?

3. Do you have a heavy and dragging sensation in the parts and groins when etanding on your feet?

4. Is there pain and tenderness in the parts on slight pressure?

5. Do you become weak and nervous upon the slightest exertion?

6. Do you find that your vigor and power are slowly but steadily on the decline?

6. Do you find that your vigor and power are slowly but steadily on the decline?

7. Do you find relief when the parts are carefully and firmly supported?

8. Were the parts ever injured by a blow or fail?

My cure for varieoccle is without pain or surgery and removes every drop of stagnated blood and diseased tissue from the affected parts. Normal circuitation is are-tablished throughout the peivic resion and perfect manhood is rectored.

In cases of sirief ure, by modern treatment. I cure the disease without cutting or dilating, thus avoiding the horrors of surgery. Symptoms of Urethral Stricture—ask yourself these ouestions:

1. Do you suffer from urethral discharge?

2. Is the urinary tract partially obstructed?

5. Do you suffer from pains in the bladder?

6. Is there a frequent desire to micturate?

7. Is the water voided often mixed with blood, mucus and shreds?

8. Is there a great dread and fear, causing you to retain water?

acts immediately and di rectly upon the disease, dissolving it completely at tissue, which comes a way in sirips or shredike fiber, allays all irritatops all discharges, lea ving the canal entirely free from obstruction, one strong and sturdy, and the joys and vigor of manhood are restored.

Other Diseases which Dr. King Cures are: OF MANLY VIGOR, UNNATURAL DISCHARGES CONTAGIOUS BLOOD POISON WILL KIDNEY, BLADDER AND PROSTATIC TROUBLES, RUPTURE AND PILES CONSULTY PRICE "FACTH FOR MEN." Sent free in plain wrapper upon request.

THANIEL K. KING, I. E. Gr. Fire and 6th Str., St. Louis, Me.

PESSIMISTIC TONE

AMONG SPECULATORS.

WEEK IN WALL STREET MARKED BY LIQUIDATION.

Some Indication That the Syndicate of Capitalists Has Come to a Parting of the Ways.

New York, Sept. 28.-With only two hours of trading to-day and a yacht race in progress, a large part of the usual interest in the stock market was diverted and the af-fair was principally one of small professional operations. There were some heavy blocks, running from 1,600 to 9,500 shares, of United States Steel, common and preferred, New York Central and Union Pacific transferred in the opening dealings, and the market generally went higher during the first hour. A number of obscure stocks were brought forward, as yesterday, some new ones being added to yesterday's list. Amalgamated Copper fluctuated uncertain-ly, rising a small fraction at first and meeting support at early declines. The whole market sold off in the second hour, when traders took their profits, and Amaiga-mated fell 2% below hist night. The Van-derbilts were also notably affected by the realizing in one absence of the buying from the sources which were responsible for yes-terday's strength.

Weak at the Close. The market closed weak, The bank statement showed a larger gain in cash reserves than was anticipated, but failed to reflect the expected contraction in the loan account from the stock market liquidation. Prepa-rations for October disbursements and for subscription to several municipal bond is-sues during the week probably account for the offset to the repayment of loans by stock markets.

Week of Liquidation.

Heavy liquidation from all sources has been apparent in the stock market all the week. The motive of this liquidation was obviously mixed and seemingly somewhat

conflicting.

What are called the large financial inter-What are called the large financial interests showed evidence of a divided sentiment early in the week. Morgan and Gould stocks continued to advance, with signs of inside support, after all evidence of support had been withdrawn in the stocks in which Standard Oil interests are dominant. There has been activity for some time past by the speculative pools in the market, based on the assumption that the great financial powers were united in a determination to support prices and protect the money market, as they did through the crisis following President McKinley's assassination. The fact of a divergence of policy among these influential capitalists was sufficient to check the activity of the professional pools even while the one party continued their measures of support, which was only for a short time.

short time.

Not only did the brokers who have acted as agents of the supporting powers in the market discontinue their measures, but they became large sellers of the shares accumulated by their heavy buying at recent periods of weakness. Joined with the rush to realize by professional pools, the effect was to throw the market at times into a state bordering on demoralization.

Copper Cut a Figure.

The disconcerting effect on speculative sentiment of the development in Amalga-The disconcerting effect on speculative sentiment of the development in Amalgamated doubtless was an important element in deciding the change of policy of the present leaders. The conditions of the copper trade, which are assigned as the cause of the present demoralization in copper mining stocks, are not new subjects in Wall street. Even the omission of the customary extra dividend on Amalgamated Copper stock was industriously rumored for many days before the fact. It was news to speculators in the stock that foreign consumption and exports of copper had decreased enormously, owing to trade depression and failures of electrical entirprises in Germany. Copper trade statistics were in circulation in Wall street for weeks before the collapse in Amalgamated Copper and even while its price was soaring to near its record figure. It was only on the very eve of dividend action by the directors that the manipulation for the advance and support of the price ceased. The rush to sell after the reduction in the dividend found the market practically bare of demand, and the drop in the price from 107% on Friday afternoon last week before the dividend was announced to 88% on Wednesday, was practically perpendicular.

Pessimistic Tone.

The selling of stocks elsewhere in the market was due in large part to speculative

The selling of stocks elsewhere in the mar-ket was due in large part to speculative losses incurred by the drop in Amalga-mated Copper. The whole speculative tone became pessimistic, and there was large selling of long stock and short selling by the bears. The general outlook was consid-

became pessimistic, and there was large selling of long stock and short selling by the bears. The general outlook was considered discouraging and views were expressed that the cycle of prosperity had reached the crest.

Rumors were rife of the abandonment of some of the important financial projects, looking to extension of community of interest, and announcement, accepted as authorized, was made that measures for financing the purchase of Northern Pacific shares on behalf of Union Facilit were to be postponed until more favorable conditions. This renewed the latent apprehension of an outbreak of the quarrel over the control of Northern Pacific.

Demoralized Freights a Factor.

Eastbound freight rates into Chicago were reported demoralized on account of the light grain movement, with a threatened extension to trunk-line territory and specific assertions were published of a feud between Pennsylvania and Wabash over the entrance of the latter into Pittsburg, with threats of reprisals.

Fears recurred that the interior demand for money would exceed resources of New York banks and would necessitate large curtailments of call loans to meet them, while the sharp recovery in foreign exchange carried rates well away from the gold import point and destroyed hopes of immediate relief from that source. Such were some of the items making up the feeling of discouragement in the stock market during the period of violent decline in prices. The future of the money market seems by no means clear, although interest rates have declined and banks have shown increasing disposition to accommodate borrowers. That heavy requirements remain to be filled for interior currency needs is certain.

Cotton Being Held for Advance.

Cotton Being Held for Advance.

certain.

Cotton Being Held for Advance.

Cotton is being held at the South for higher prices and credits are required for this purpose. In addition the supply of cotton bills is diminishing in the exchange market and claims upon Europe for gold are thereby reduced. The period of active money at home as well as abroad is approaching and the pressure at Berlin this week and withdrawals of gold from London for that center indicate the extraordinary requirements incident to the end of the quarter.

The condition of the copper export trade is suggestive of the possible effect upon other trades of stagnant trade condition in Europe and decreased demand for our commodities and in some cases increased competition from congested stock and lower prices abroad. It is evident, also, that the week's demand for foreign exchange was due in part to a demand from shorts, which is in effect repayment of loans from foreign borrowers made some time since. Remittances on account of subscriptions to the British consols issued also played a part.

But on the other hand the week has seen

smee. teemitances on account of sunscriptions to the British consols issued also played a part.

But on the other hand the week has seen the receipt of \$2,500,000 in Australian gold at San Francisco and the shipment of a like amount from Sydney. Large redemptions of Government bonds have relieved the drain to the Subtreasury on revenue account. The week's liquidation in the stock market has in itself greatly strengthened the condition of the banks and relieved the speculative situation, and sentiment greatly improved towards the close of the week.

There has been no notable seiling pressure in the bond market outside a few speculative bonds.

United States refunding 2s advanced 4, the 3s % and the new is % over the closing call of last week.

Specie Movements.

New York, Sept. 28.—Exports of silver from this port to all countries for this week aggregate 174, 120 silver and 11,005 gold. The imports of specie this week were 157,428 gold and 138,205 silver. Dry goods and merchandles 116,543,214.

St. Louis Money Market.

Banks and trust companies reported an increased volume of business for the week. Yesterday's deposits were fair, with a good loan demand. Discount rates were firm between 5 and 5 per cent.

Washington, Sept. 28.—To-day's statement of the Treasury Balances in the general fund, ex-clusive of the \$150,000,000 roof reserve in the div-sion of redemption, shows: Available cash bal-ance \$190,532,233; gold \$102,287,675. National bank notes received to-day for gedemption \$42,346; re-ceipts from internal revenue \$22,524; customs \$511,154; miscellaneous \$22,210; expenditures \$1,-\$170,000.

PIRE IN A TAR-ROOM—The St. Louis Cordage Company's plant was damaged about \$600 by a fire, which was started in the tar-room yesterday. CHARITY EUCHRE-The Logan W. R. C. will give a charity euchre in Phenix Hall, Jefferson and Cass avenues, Thurs-Say, October 3, at 2:20 p. m. Curse

White Ribbon Remedy. Can be given in Glass of Water, Tea or Coffee Without Patient's Knowledge,

Without Patient's Knowledge.

DRUG HABIT QUICKLY CURED.

An Institution Which Permanently and Rapidly Cures Drink and Drug Habit.

The city of St. Louis has a sanitarium which is destined to become famous throughout the civilized world. At this sanitarium men and women are treated for the drug and liquor habit. The treatment is a marvelous scientific discovery; through it the excessive user of drugs and liquor treatment is a marvelous scientific discovery; through it the excessive user of drugs and liquor is permanently cured in a few days without pain. Hundreds of people who had suffered for years are loud in their praise for this rapid and painless treatment, which cures them without exercise of will power. The treatment is a purely vegetable compound. It not only eliminates all trace of the drug and liquor from the system, but cradicates all desire and dispels all distressing symptoms, such as nervousness, weakness, etc., and builds up the entire system. The Antinarcotin Sanitarium is located on the northwest corner of Washington and Garrison aves. St. Louis. Any one calling will receive a courteous vedcome, or if you send your ame and address to Mr G. H. Roose, the manager, you will receive a beautiful booklet, giving you the vital principles of this wonderful treatment, also testimonials of wonderful cures from men and women who, through actual test, know the efficaciousness of this grand boon to humanity. All communications will be held confidential.

CORN CLOSED LOWER, BUT WHEAT GAINED

BEARS UNABLE TO ENTIRELY CONTROL GRAIN PIT.

Good Maturing Weather in West the Chief Factor in Causing a Slump in Corn Prices.

ness of Saturday's session prevailed on the Board of Trade to-day, and under bearish conditions Dec. corn closed 1½c lower, Dec. wheat a shade higher and Dec. cats %@½c lower. Provisions closed 2½c to 2½@5c high-

Corn opened heavy and ruled weak all day, Dec. starting 16% lower at 57% to 57% on lower cables and fair weather for maturing the late crep. There was a feeble attempt by the bull party to press the price back, but Dec. held 57%c only momentarily, and on liberal offerings by the longs, who bought early in the week, Dec. broke and declined rapidly, closing weak 1½c lower at 5%c. Receipts were 318 cars.

Whent. When wheat opened a small bear rigg succeeded in pressing the market for D.c. under 70c, and it looked for a time as if it under 70c, and it looked for a time as if it would stay there, especially with the influence of a slump in the corn market. Dec. started \$4c lower to unchanged at 63%c to 70%c on lower cables and liberal receipts, and with the Northwest a seller and a seeming exhaustion of buying orders at 70c the sales kept around 63%c for the first hour. A fair outside demand developed, however, and on shorts covering the market touched 70%370%c and closed easy a shade higher at 70%370%c Local receipts were 128 cars. Minneapolis and Duluth reported 316 cars, making a total for the three points of 1.644 cars, against 1.422 last week and 612 a year ago. Primary receipts were 1.157,000 bu., compared with 981,000 bu. a year ago. Seaboard clearances in wheat and flour were 631,000 bu.

Oats were more active than for several days, though under the influence of corr the market was weak. Dec. opened 1/60/4c to 1/5c lower at 25/4/35/5c to 35/5c and, following the break in corn and on a liberal liquidation, declined and closed weak at the bottom figure, 3/6/1/c lower at 35/1/2/35/5c. Receipts were 221 cars.

FUTE LINE CO.

INVESTIGATE. YOU WILL NOT BE SORRY.

A SURE GUSHER.

BEST OIL COMPANY, BECAUSE A SURE DIVIDEND PAYER INCORPORATED UNDER THE LAWS OF TEXAS.

Capital stock, \$250,000.00. Par value share, 10c each. Full paid and nonassessable.

So much has been said about the Beaumont Oil Field that it is hardly necessary to go into details in an advertisement. The history of oil companies in other fields has been that they are fortune-makers to those who invested early. Some stocks have advanced from 10 to 100 times their par value.

The Silver Dime Oil Company will be a sure dividend payer, for it will be a producer, as this company has gusher land, being surrounded by gushers. And this is not all. A glance at the map will prove it. This company owns three tracts on Spindle Top Heights, another at Sour Lake, where oil has been struck, one at Big Hill and one at High Islands, where oil has also been struck, and the indications are of the best. All lands of this company are owned in fee simple, no royalty, and our first well, owned outright, has been contracted for and started. This well is going down on one of our tracts on Spindle Top Heights, in the proven territory, where a gusher is not speculation. This well is surrounded by the Galveston Combination Well, only 100 feet away, which has a capacity of 150,000 barrels of oil per day and which shot a solid stream of oil 300 feet into the air on September 2: by the Manhattan, only 20 feet away, the M., K. & T. and the Export, all 100,000-barrel gushers.

Only a limited amount of treasury stock is offered for sale, to be used for development purposes, in St. Louis and adjacent territory, at

10c PER SHARE.
